GAME COLOR

LIGHT FX

SHADOW
CONTROL

The AOC AG273FXR is the perfect gaming monitor for any genre. Its 27" flat panel displays stunningly lush and realistic colours thanks to its new Nano-IPS technology. On top of that, 1 ms response time and 165 Hz refresh rate convey action on screen faster than ever before.

- **Screen Shield**
- **Low Input Lag**
- **GMENU**
- **6 Games Mode**
- **AOC Game Color and Shadow control**
- **RGB LIGHT FX**

SCREEN SHIELD

The built-in AOC Screen Shield eliminates shadows and glare from external light sources for optimal visibility of your in-game action.

LOW INPUT LAG

Unleash your reflexes by switching to the AOC Low Input Lag mode. Forget graphical frills: this mode rewires the monitor in favour of raw response time, giving the ultimate edge in hair trigger stand offs.

G MENU

AOC G-Menu is a free tool that you can install on your PC to have complete customization paired with maximum convenience.

6 GAMES MODE

Tailor your display to the game with a click of a button. Switch settings between in-built presets for FPS, racing, or RTS games, or customise your own ideal conditions and save them. The AOC Settings KeyPad makes switching profiles or adjusting features quick and easy.

AOC GAME COLOR AND SHADOW CONTROL

Bring the battle out of the shadows with AOC Shadow Control and AOC Game Color! Adjust grey levels for better picture detail and brighten dark areas or sink them back into blackness on the fly, without affecting the rest of the display.

RGB LIGHT FX

Maximum immersion: our AOC monitors come with special lighting at the back of the device that illuminates your gaming setup in various colours. Choose whatever colour you like, sync it up with your other AOC devices and test the different glowing patterns.

GENERAL

Model Name	AG273FXR
Channel	Gaming
Product line	AGON
Design family	AG3
Launch date (ETA)	9/1/2020
EAN	4038986118569
