TRACK FASTER, REACT
SOONER, WIN MORE

POWERED BY
AG276QSG2

AGON PRO AG276QSG2 pairs a 2560x1440 Fast IPS panel with 360Hz refresh and 1ms GtG response. NVIDIA G-SYNC Pulsar supports ULMB 2 and G-SYNC Ambient Adaptive Technology, with 16.7M (8-bit) colour for consistent visuals.

- **Speed Without the Smear**
- **NVIDIA G-SYNC Pulsar**
- **G-SYNC Ambient Adaptive Technology**
- **NVIDIA G-SYNC ULMB 2**
- **QHD 2560×1440 Resolution**
- **360Hz Refresh Rate**

SPEED WITHOUT THE SMEAR

Stay sharp during flicks and fast turns with cleaner motion and consistent visuals, even when the action gets chaotic, so targets remain easier to track and your timing feels more reliable.

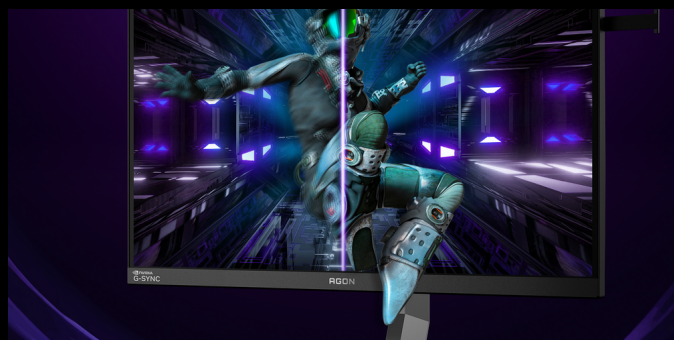

NVIDIA G-SYNC PULSAR

For more precise aiming and sharper, clearer gameplay, G-SYNC Pulsar utilizes variable frequency backlight strobing to deliver 4x effective motion clarity, together with smooth G-SYNC Variable Refresh Rate.

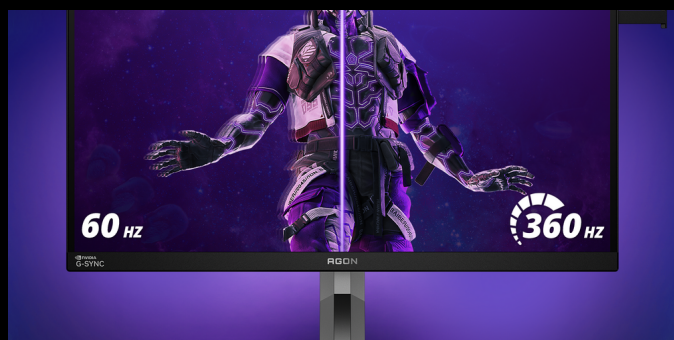

G-SYNC AMBIENT ADAPTIVE TECHNOLOGY

G-SYNC Ambient Adaptive Technology utilizes a built-in light sensor to give you the option to automatically tune color temperature and brightness for optimal viewing at any hour of the day or night.

QHD 2560×1440 RESOLUTION

QHD (2560×1440) resolution delivers a crisp, detailed image with more clarity than Full HD, offering sharper edges and improved definition across scenes, textures, and on-screen elements in games.

NVIDIA G-SYNC ULMB 2

Supports ULMB 2 (Ultra Low Motion Blur) to enhance motion clarity for fast-moving action, improving perceived sharpness during high-speed gameplay and maintaining a clearer image during intense sequences.

360HZ REFRESH RATE

A 360Hz refresh rate updates the image up to 360 times per second for ultra-smooth motion, providing fluid visuals that support high-FPS esports performance and fast, precise on-screen tracking.
