POWERED BY
AG276UZ/75

Step into the future of gaming with the AG276UZ—a 27" Fast IPS display built for both breathtaking detail and elite-level speed. Choose between ultra-crisp 4K resolution at 240Hz or lightning-fast Full HD at 480Hz to match your playstyle. Gain the competitive edge with Adaptive Sync, ultra-low input lag, and specialized features like Sniper Scope. Designed for comfort and control, it features Flicker-Free technology, Low Blue Light mode, HDMI 2.1 & DP 2.1 connectivity, a Height Adjustable Stand, and G-Menu customization. Precision, power, and performance—all in one. ...

- **Fast IPS**
- **Landmark technology of dual-refresh rate feature**
- **Vesa Certified DisplayHDR™ 400**
- **Adaptive sync**
- **HDMI 2.1**
- **Low Input Lag**

FAST IPS

Unlock your gaming potential with Fast IPS panels offering rapid pixel response times of up to 1ms GtG. Say farewell to motion blur as you enjoy sharper images, enhancing precision targeting and boosting performance in high-speed games. Experience the advantages of fast IPS technology, including vibrant colors and wide viewing angles, for an immersive gaming experience and unleash your full potential.

LANDMARK TECHNOLOGY OF DUAL-REFRESH RATE FEATURE

Adapt to your playstyle by switching instantly between visual excellence and competitive performance with AOC's Dual Mode feature. Experience AAA gaming worlds in crisp UHD at 240Hz, or dominate the competitive scene with responsive FHD at 480Hz. From the rich details of story-driven adventures to the precision needed in competitive gaming, one display is all you need. Two distinct gaming experiences, zero compromises.

VESA CERTIFIED DISPLAYHDR™ 400

Even the lowest level of High Dynamic Range (HDR) feature poses a significant upgrade to common monitors. The peak luminance of 400 cd/m² enables your display to hone the picture quality with a manifold colour spectrum and more diverse contrast. The VESA-certificate ensures richness of detail and realistic portrayals of game and film worlds.

HDMI 2.1

The latest standard in HDMI technology further boosts higher refresh rates and resolution. This not only opens new doors for watching content, but also for gamers: HDMI 2.1 enables next generation consoles to reach their maximum performance.

ADAPTIVE SYNC

Adaptive Sync aligns your monitor's vertical refresh rate with the frame rate delivered by your GPU, making your gameplay and casual gaming experience even more fluid by eliminating stuttering, tearing and judder. This feature is also useful when enjoying videos and other visual media, for a smoother entertainment.

LOW INPUT LAG

Unleash your reflexes by switching to the AOC Low Input Lag mode. Forget graphical frills: this mode rewires the monitor in favour of raw response time, giving the ultimate edge in hair trigger stand offs.

GENERAL		POWER CONSUMPTION		WHAT'S IN THE BOX	
Model Name	AG276UZ/75	Power consumption on (typical) in watts	37,0	HDMI cable	1.8m × 1
Brand	AOC
