BECOME THE
ULTIMATE LEGEND

POWERED BY
AG326UZD2

Crafted for enthusiasts who demand both visual excellence and high-speed performance, the AG326UZD2 features a stunning 31.5" UHD 4K QD-OLED panel that delivers exceptional clarity, vivid colours, and perfect blacks. A blazing-fast 240Hz refresh rate ensures fluid, responsive motion for competitive gaming and smooth high-frame-rate content. Enhanced with HDR True Black 500, the display offers impressive brightness and contrast for a more dynamic, lifelike viewing experience. Equipped with modern connectivity, including USB-C, HDMI 2.1, and DisplayPort 2.1, along with integrated speakers for added convenience, the AG326UZD2 is designed to anchor premium gaming, entertainment, and creative setups with uncompromising quality.

- **Three-Year Warranty OLED**
- **UHD (4K) Resolution**
- **240Hz Refresh Rate**
- **HDR500 TrueBlack**
- **G-SYNC Compatible**
- **WIDE COLOR GAMUT**

THREE-YEAR WARRANTY OLED

Warranty included: 3-Year Warranty (Including coverage for OLED burn-in*) For more information, please refer to Warranty Information page. OLED burn-in* Warranty is covered only when the screen maintenance is performed in accordance with the instructions to be found here.

UHD (4K) RESOLUTION

4K Ultra High-Definition (3840 x 2160) resolution delivers ultra-crisp picture quality and allows users to see more on the screen at one time. This provides more screen 'real estate' and shows more detail for sharper and more brilliant images. Whether working on the next beautiful photo, or design, or even just used for productivity, users will marvel at the true, crisp image that only a UHD display can provide.

240HZ REFRESH RATE

Whether dodging bullets in an FPS or drifting through tight corners in a racing game, the crispness and responsiveness of your monitor with a 240Hz refresh rate can elevate your gaming experience to new heights. It's not just about gaining a competitive edge — it's about feeling fully immersed in the game world, where every detail is rendered with stunning clarity and every movement feels incredibly lifelike.

HDR500 TRUEBLACK

VESA Certified DisplayHDR™ 500 delivers a dramatically different visual experience. Unlike other "HDR-compatible" displays, true DisplayHDR™ 1000 provides impressive brightness, contrast, and colors. With local dimming and a peak brightness of up to 500 nits, images come to life with striking highlights and deeper, more nuanced blacks. It reproduces a broader palette of rich, new colors, delivering a visual experience that engages the senses.

G-SYNC COMPATIBLE

Enable flawless picture quality by synchronising new generations of NVIDIA graphics cards* with this G-SYNC Compatible monitor. *Please refer to NVIDIA website for the complete list of GPUs working with G-SYNC Compatible monitors

WIDE COLOR GAMUT

When you are enjoying photos, videos or games, we want your screen content to look as lifelike as possible. That is why this display comes with Wide Colour Gamut technology, which means that it is able to display a lot more colours than conventional monitors. This is achieved through a special hardware solution, not through mere software adjustments. The result: true-to-life images with fine details that become visible thanks to the broader colour palette.
