ONLY FOR THE TRUE
VALIANT

POWERED BY
C32G42ZE

The C32G42ZE Curved Gaming Monitor combines comfort and performance in a streamlined design. Its 1500R curve and VA panel provide deep contrast and a wide colour gamut for more immersive visuals. With a fast 240Hz refresh rate, 0.3ms MPRT, and AdaptiveSync, enjoy fluid, responsive action with minimal input lag. HDR10 support enhances brightness and detail, while G-Menu software offers easy customization.

- **1500R Curved**
- **260Hz (OC240Native)**
- **WIDE COLOR GAMUT**
- **Adaptive sync**
- **Low Input Lag**
- **Live the game at its best with HDR10**

1500R CURVED

Curved design wraps around you putting you at the center of the action and provides an immersive gaming experience.

260HZ (OC240NATIVE)

260Hz (OC,240Native) completely unleashes top end GPUs, bringing unprecedented fluidity to the picture on your screen. With every detail brought sharply into focus and every movement shown with crystal clarity, feel your reactions become one with the action and elevate your game.

WIDE COLOR GAMUT

When you are enjoying photos, videos or games, we want your screen content to look as lifelike as possible. That is why this display comes with Wide Colour Gamut technology, which means that it is able to display a lot more colours than conventional monitors. This is achieved through a special hardware solution, not through mere software adjustments. The result: true-to-life images with fine details that become visible thanks to the broader colour palette.

ADAPTIVE SYNC

Adaptive Sync aligns your monitor's vertical refresh rate with the frame rate delivered by your GPU, making your gameplay and casual gaming experience even more fluid by eliminating stuttering, tearing and judder. This feature is also useful when enjoying videos and other visual media, for a smoother entertainment.

LOW INPUT LAG

Unleash your reflexes by switching to the AOC Low Input Lag mode. Forget graphical frills: this mode rewires the monitor in favour of raw response time, giving the ultimate edge in hair trigger stand offs.

LIVE THE GAME AT ITS BEST WITH HDR10

HDR10 is here to enhance picture quality even further, improving the synchronization of your GPU or your console with the monitor. This creates a more realistic, immersive, and smooth gaming experience: You'll feel like stepping in the game, frame by frame.
