

AGON
BY AOC

POWERED BY
CS24A/P/69

Engineered for elite performance in fast-paced titles like Counter-Strike 2, the AGON CS24A/P sets a new standard with a groundbreaking 610Hz refresh rate and 0.3ms response time, delivering unmatched speed and precision. Its Fast TN (E-SPORT TN) panel is built for pro-level clarity, while features like CS Mode and CS Light FX enhance in-game immersion. Gain the upper hand with Sniper Scope and Shadow Control, and enjoy razor-sharp visuals even in motion with MBR Sync/MBR+. Adaptive Sync ensures smooth, tear-free gameplay, while VESA DisplayHDR 400 brings vibrant color and contrast. Designed for endurance, it's flicker-free and easy on the eyes—perfect for long competitive sessions. ...

- **TN eSports**
- **Become a Gaming-Optimized Weapon for your Team with 610Hz and 0.3ms**
- **RGB LIGHT FX**
- **Vesa Certified DisplayHDR™ 400**
- **Adaptive sync**
- **Low Input Lag**

TN ESPORTS

Dominate with AOC's Fast TN eSports panel, delivering blazing-fast 0.5 ms GTG response times and high refresh rates up to 610 Hz. Enjoy crisp, tear-free visuals and ultra-low input lag for unrivaled competitive precision.

BECOME A GAMING-OPTIMIZED WEAPON FOR YOUR TEAM WITH 610HZ AND 0.3MS

With 610Hz monitors being the standard in professional e-sport tournaments and competitions, embrace team solidarity and enjoy an ultra-smooth experience with the incredible responsive of 610Hz and 0.3ms, honing your sharpness and gaming abilities to the next level, especially where optimal team collaboration is required.

RGB LIGHT FX

Maximum immersion: our AOC monitors come with special lighting at the back of the device that illuminates your gaming setup in various colours. Choose whatever colour you like, sync it up with your other AOC devices and test the different glowing patterns.

ADAPTIVE SYNC

Adaptive Sync aligns your monitor's vertical refresh rate with the frame rate delivered by your GPU, making your gameplay and casual gaming experience even more fluid by eliminating stuttering, tearing and judder. This feature is also useful when enjoying videos and other visual media, for a smoother entertainment.

VESA CERTIFIED DISPLAYHDR™ 400

Even the lowest level of High Dynamic Range (HDR) feature poses a significant upgrade to common monitors. The peak luminance of 400 cd/m² enables your display to hone the picture quality with a manifold colour spectrum and more diverse contrast. The VESA-certificate ensures richness of detail and realistic portrayals of game and film worlds.

LOW INPUT LAG

Unleash your reflexes by switching to the AOC Low Input Lag mode. Forget graphical frills: this mode rewires the monitor in favour of raw response time, giving the ultimate edge in hair trigger stand offs.
