UNLEASH YOUR  
POTENTIAL

POWERED BY  
**CU34G4H**

Elevate your gaming with the CU34G4H 34" WQHD curved monitor. Enjoy smooth gameplay with a 200Hz refresh rate and 1ms GtG response time. The 1500R curved VA panel provides immersive visuals. Equipped with FreeSync Premium, low input lag, and 0.3ms MPRT, this monitor is built for speed and precision. The HAS allows for customizable settings and ergonomic comfort.

- **1500R Curved**
- **Height adjustable Stand**
- **Low Input Lag**
- **Wide QHD (WQHD) Resolution**
- **FreeSync Premium**
- **VA Panel**

## 1500R CURVED

Curved design wraps around you putting you at the center of the action and provides an immersive gaming experience.

ADJUSTABLE  
STAND

## HEIGHT ADJUSTABLE STAND

Raise or lower the screen to suit each individual's height and seating preferences. The easy-to-adjust stand ensures hours of comfort.

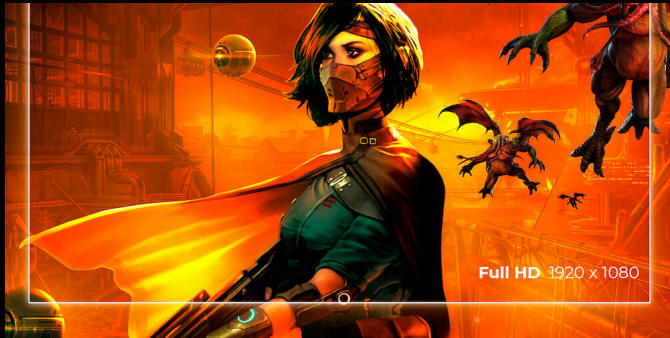

## LOW INPUT LAG

Unleash your reflexes by switching to the AOC Low Input Lag mode. Forget graphical frills; this mode rewires the monitor in favour of raw response time, giving the ultimate edge in hair trigger stand offs.

## WIDE QHD (WQHD) RESOLUTION

With 3440 x 1440 resolution, Wide Quad HD (WQHD) offers superior picture quality and crisp imagery that reveals every detail. The widescreen 21:9 aspect ratio is perfect for watching movies in an expansive format or immersing yourself in the latest game, plus it offers more space when it's time to work. True 8-bit color provides a broad color palette for vibrant, natural-looking images.

## Freesync PREMIUM

Enjoy the best quality visuals even in fast paced games. The AMD FreeSync Premium Technology ensures that the GPU's and monitor's refresh rates are synchronised, which provides a fluid, tear free gaming experience at highest performance. The AMD FreeSync Premium features a refresh rate of minimum 120Hz, decreasing blur and sharpening the picture for a more life-like experience. The LFC feature eliminates the risk of stutter in case the frame rate drops below the refresh rate.

## VA PANEL

VA Panels (Vertical Alignment) display deeper blacks and a high contrast for extra vivid and bright images.
