**G2490VX**

The 24-inch G2490VX in the AOC G90 series of newly enhanced mainstream gaming monitors offers experienced gamers a ghost-, stutter- and tear-free gameplay experience in the tried and tested FHD (1920 x 1080) format they have come to trust, plus competitive features that include a VA panel, a fast refresh rate of 144Hz, plus a 1.0ms (MPRT) smart response time. An eye-catching immersive three-sided frameless design enables practical multi-monitor setups, while smooth tear-free imaging is ensured by FreeSync Premium technology. HDMI and DisplayPort ports are further convenient 'value-add' features. Most importantly, AOC Flicker-Free technology and AOC Blue Light Mode together protect the user's vision.

## **Freesync Premium**

Enjoy the best quality visuals even in fast paced games. The AMD FreeSync Premium Technology ensures that the GPU's and monitor's refresh rates are synchronised, which provides a fluid, tear free gaming experience at highest performance. The AMD FreeSync Premium features a refresh rate of minimum 120Hz, decreasing blur and sharpening the picture for a more life-like experience. The LFC feature eliminates the risk of stutter in case the frame rate drops below the refresh rate.

## FHD RESOLUTION

Want to watch a Blu-ray movie in full quality, enjoy games in high resolution or read crisp text in office applications? Thanks to its Full HD resolution of 1920 x 1080 pixels, this monitor lets you do just that. Whatever you are viewing, with Full HD it will be displayed in rich detail without requiring a high-end graphics card or consuming a lot of your system's resources.

## AOC GAME COLOR AND SHADOW CONTROL

Bring the battle out of the shadows with AOC Shadow Control and AOC Game Color! Adjust grey levels for better picture detail and brighten dark areas or sink them back into blackness on the fly, without affecting the rest of the display.

## 144HZ REFRESH RATE

Equip yourself with twice the frame rate of other monitors and say goodbye to image stuttering and blurry motion. With a 144Hz refresh rate every frame is rendered sharply and in smooth succession, so you can line up your shots accurately and appreciate high speed races in all their glory.
