DESIGNED TO STAND ANY CHALLENGE

POWERED BY
PD34

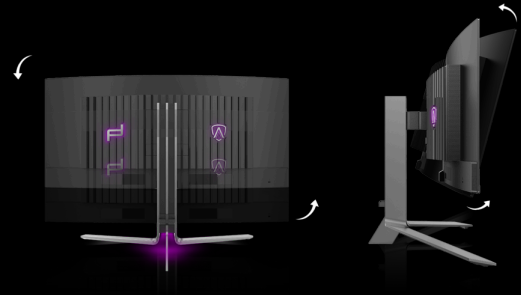

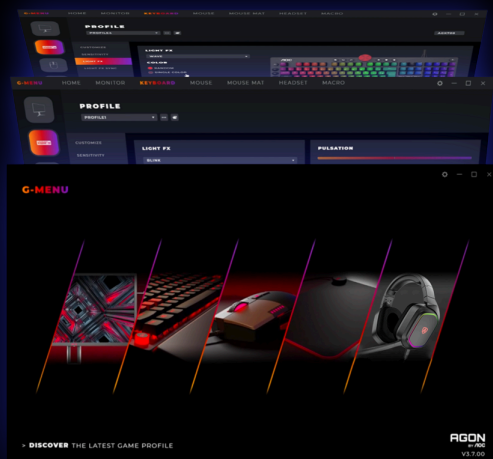

Step into a new realm of performance with the PD34, a 34-inch WQHD (21:9) curved monitor, crafted in collaboration with Porsche Design, features cutting-edge QD-OLED technology for unmatched color precision and profound contrasts. With a blazing-fast 240Hz refresh rate and HDR TrueBlack 400, every detail comes alive with stunning clarity and vibrant visuals, perfect for both gaming and creative work. Equipped with a comprehensive connectivity suite including USB-C, KVM, and HDMI 2.1, along with a versatile USB hub and an ergonomic stand for optimal comfort, the PD34 offers the ultimate in convenience and productivity. Backed by a 3-year burn-in warranty, the Porsche Design PD34 is your gateway to exceptional performance, style and sophistication.

ERGONOMIC DESIGN

Ergonomic stand to maintain comfort and prevent strain during long gaming sessions. It offers a wide range of motion and easy height, tilt, and swivel adjustments, accommodating the proper ergonomics and your personal preferences.

GMENU

AOC G-Menu is a free tool that you can install on your PC to have complete customization paired with maximum convenience.

WIDE QHD (WQHD) RESOLUTION

With 3440 x 1440 resolution, Wide Quad HD (WQHD) offers superior picture quality and crisp imagery that reveals every detail. The widescreen 21:9 aspect ratio is perfect for watching movies in an expansive format or immersing yourself in the latest game, plus it offers more space when it's time to work. True 8-bit color provides a broad color palette for vibrant, natural-looking images.

WIDE COLOR GAMUT

When you are enjoying photos, videos or games, we want your screen content to look as lifelike as possible. That is why this display comes with Wide Colour Gamut technology, which means that it is able to display a lot more colours than conventional monitors. This is achieved through a special hardware solution, not through mere software adjustments. The result: true-to-life images with fine details that become visible thanks to the broader colour palette.

KVM

Share one single keyboard, mouse and monitor between multiple computers with KVM switch hardware.

More connectivity with USB C,
HDMI 2.1, DP 1.4, USB 3.2

CONNECTIVITY

Connectivity is not left to chance, either, as the monitor includes several ports like HDMI, DisplayPort, USB, headphones and microphone.

QD OLED PANEL

QD-OLED represents a hybrid approach that marries OLED panels and quantum dot technology.

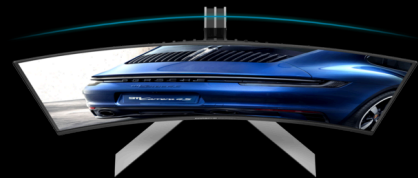

240HZ

240HZ

It supports high refresh rates up to 240 Hz, which can deliver smooth and responsive gameplay with minimal input lag and motion blur. You can also take advantage of Adaptive-Sync technologies like G-Sync or FreeSync to eliminate screen tearing and stuttering.

1800 CURVED

Step into a world of unparalleled immersion with our cutting-edge 1800R curved display. Immerse yourself in stunning visuals that wrap around your field of vision, creating a cinematic experience like never before. Whether you're gaming, streaming, or working, the curvature of our display ensures every detail is right in front of your eyes.

DESIGNED BY PORSCHE DESIGN

PORSCHE DESIGN

The PD34 monitor (designed by Porsche Design) is inspired by the cooling fins found on the legendary Porsche 911, which, as Ferry Porsche said, was designed to be driven "from an African safari to Le Mans, then to the theatre and onto the streets of New York." Whose design is echoed by the surface structure of the back of the monitor. The monitor speaks with a transcendent design and excellent hardware features.

VESA CERTIFIED DISPLAYHDR™ TRUE BLACK 400

The DisplayHDR™ True Black 400 brings you deeper, more accurate black levels, making your viewing experience richer and more immersive. No more washed-out dark scenes in movies and games. With TrueBlack 400, you're in for a more realistic visual journey.
