U32U1

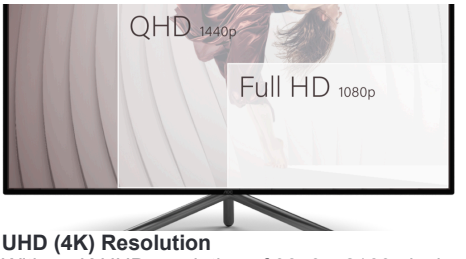
HDR, 4K resolution and 4-sides frameless monitor, designed by Studio F.A. Porsche

Elegantly designed by Studio F.A. Porsche, the U32U1 boasts a 31.5” IPS panel in 4K, Vesa DisplayHDR 600 and 98% DCI-P3 coverage for breath-taking images. With USB-C and USB 3.0 hub.

Features

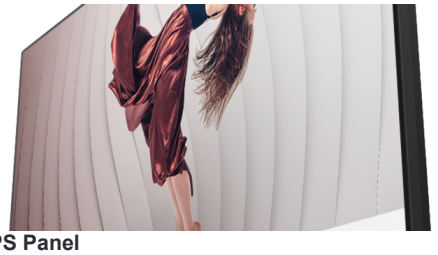
Design
The Red Dot Design Award-winning U32U1 combines the best of two worlds: audacious design from Studio F. A. Porsche, one of the most renowned design studios, with top-notch display technology from AOC. The design of the U32U1 reflects people’s changing perception of work and private life, and aims at users with high aesthetical requirements letting the monitor stand out in any environment and usage context.

Zero Edge Display
With its zero edge design, the concept of the frameless display is taken one step further. Through its innovative design, the frames on the left and right sides are actually hidden behind the panel, resulting in a genuine frameless, zero edge display.



UHD (4K) Resolution
With a 4K UHD resolution of 3840 x 2160 pixels – four times the resolution of a Full HD display – the monitor boasts a pixel density that delivers brilliantly sharp images with the finest details.

USB-C
Simplify the connections with one cable only. The USB-C connection provides DisplayPort Alternate Mode for transferring high-resolution video signals from a notebook to the monitor while simultaneously charging the notebook’s battery from the monitor with USB power delivery. Additionally, the USB 3.1 ensures lightning-fast data transmission, so even transferring a 4K movie can be done in less than one minute.



IPS Panel
The IPS panel ensures an excellent viewing experience with lifelike yet brilliant and accurate colours. Colours look consistent no matter from which angle you look at the display. Additionally, the anti-glare coating prevents disturbing reflections on the screen.

Wide colour gamut
The AOC U32U1 has an excellently wide colour gamut. It covers 100 % of the Adobe RGB and 98% of the DCI-P3 colour spaces, making it an ideal choice for photography and video professionals as well.
